APPROVAL OF GROUNDWATER MONITORING REPORT (REVISED) OPERABLE UNITS C, D, AND E, FORMER GEORGIA-PACIFIC CORPORATION SITE, 90 WEST REDWOOD AVENUE, FORT BRAGG, MENDOCINO COUNTY, CALIFORNIA (SITE CODE: 202276)

Dear Mr. Buck,

The California Department of Toxic Substances Control (DTSC) has reviewed Mendocino Railway's updated version of the *Groundwater Monitoring Report (Revised) Operable Units C, D, & E Former Georgia-Pacific Wood Products Facility Fort Bragg, California*, which was submitted to DTSC on April 15, 2026. The report summarizes the data collected in February 2023 representing the second seasonal monitoring period of Year 5 of the biennial program described in the OU-C Groundwater Operation and Maintenance Plan and the OU-D/E Groundwater Operation and Maintenance Plan. The only change made to the report is the inclusion of a revised version of Table G.2 in place of the original table, as requested in DTSC's comment letter dated April 1, 2026. DTSC approves the revised report as final.

Mr. Mike Buck
